Bell Hosted IP Voice*

No hassles, no upfront investment.

Improve productivity and stay in touch with customers with a no-hassle, hosted voice solution. Hosted IP Voice delivers the latest functionality without a big capital investment or in-house expertise. Ideal for companies with 20-100 employees and few technical staff.

- No PBX to purchase – Bell manages your service from its central office
- Full suite of the latest calling features – staff can stay in touch with customers even when they are out of the office
- Auto attendant and receptionist console
- Manage features easily with a Web-based portal

As low as
$35 70/MO.[5]

*currently in market trial.

Connectivity Solutions

A business line is a critical part of any operation. Bell offers a variety of phone services with a wide variety of features that work for you.

1 to 20 employees

BASIC BUSINESS LINE

From
$36 30/MO.[6]

This basic phone service is ideal for businesses that need a single phone line for phone, fax, point of sale or an alarm system. With this service you can:

- Choose only the calling features you want
- Select a contract length that's right for you
- Get repairs completed by the end of the next business day[8]

LOCAL LINK

From
$45 25/MO.[7]

This simple, cost effective bundled service offers a full suite of features to meet your business needs whether you're connecting to a few phone sets or to an entire phone system. This phone service gives you:

- Eight of the most popular features for business such as call display and line hunting
- A choice of contract lengths
- An optional discounted fax line
- Repairs completed by the end of the next business day[8]

20+ employees

MEGALINK

Call for pricing.

Megalink is a connection to the PSTN network for your PBX, where each single connection provides you with the equivalent of 23 phone lines. It is a cost-effective solution for businesses with telephone systems that handle a large volume of calls, including call centres or companies with multiple locations. With Megalink, you will:

- Get significant savings as compared to using multiple Basic Business or Local Link lines
- Protect the reliability of your network with several back-up configuration options

Mobile Solutions

Stay productive even while you're away from the office. Bell has a range of mobile business solutions – on Canada's best network.[9] Experience faster downloads, fewer dropped calls, the clearest reception and global coverage in over 200 countries. For more information visit bell.ca/network.

Internet to go for one.

Get Internet access anytime, anywhere on Canada's best network. Turbo Sticks plug into laptop USB ports, providing portable Internet access with download speeds of up to 21 Mbps[10] and an expandable memory of up to 32GB.
